Championship Rules

Overview

At the end of each season, X Flag Football will offer a free, (Ref Fee ONLY) invitation-only tournament. The division winner from each location will receive an automatic invitation to the tournament. The remaining spots will be filled with "at-large" teams decided by a competition committee consisting of the owners of XFF, the field managers, and the officials. They will consider win/loss records during the regular season, the strength of wins, point differential over the season, the strength of the location, and the XFF computer rankings.

Roster & Eligibility

The teams that are selected may only use players that are on their official roster. Players playing in multiple XFF locations must choose only one team to play on for the championships. You may not join another team once your team has been eliminated.
Identification will be checked before teams will be permitted to check into their first game to ensure that only players on the roster are playing.

Field Size

The number of teams invited to the tournament will depend on the number of teams playing in X Flag Football leagues.
